

# Pre-Interview Review | FAQ

# INTRODUCTION

While an interview provides a more comprehensive opportunity to establish a fit, we hope you find this information helpful.

With territories opening nationwide, we field hundreds of resumes every week, so this becomes an efficient way to establish mutual interest.

For us, every new QL Group partnership represents a significant investment in resources, capital and time. As such, we find this interim step enables potential candidates to qualify their interest and remove themselves from candidacy as necessary. If, upon review you remain interested in QL Group, please submit your request for an interview!

# Why QL Group?

Nearly 900 businesses have been served through the SaaSQL method, resulting in over \$400 Million in attributable revenue.

Through QL Group, we partner with marketing professionals in establishing new marketing agencies in communities across the country. Candidates may join our team as an employee, leading a new SaaSQL Agency branch, or by launching an agency owned wholly by them. Either way, QL Group agencies have positioned themselves as key partners in developing startups, local SMB and mid-market businesses.

Not everyone is qualified, but for certain marketing professionals who are passionate about investing in themselves and building something new, we are a unique partner.

# EMPLOYEE VS. LICENSE

When QL Group expands into a new market, we either establish an **employee relationship** or support a **Licensed Owner**. We find that candidates tend to have a strong preference toward one or the other.

It doesn't matter to us which you prefer, that's why we offer both. If, based on your resume, you're invited to interview, we'll discuss whichever model you choose. Either way, there is a comprehensive selection process, and both roles requires somebody that has a strong marketing mindset and an interest in networking and being customer-facing.

On the next two pages, we will outline the differences between employee model and licensed owner models.

- Account Managers for campaign fulfillment.
- Monthly leads for marketing solutions & Fractional VP roles
- All collateral, presentations, sell sheets, and more.

**EARNINGS:** You keep 100% of monthly billing /profits. Agency owners average \$125K - \$250K annually. Highly performing agency owners exceed \$350K annually.

# QL Group Employee

If you are hired under the **employee model**, we will build a new QL Group agency brand around you in a strategic market of value to QL Group.

While the agency is built and supported in an identical manner as the Licensed Owner model, QL Group maintains full ownership of the agency brand.

**EARNINGS:** Compensation is a combination of salary plus profit share. Base salary is roughly \$30K, and total compensation tends to reach \$75K to \$110K annually.
